

Ruchit Desai

Developer

👤 Profile

Dynamic Developer with 3.5 years of experience in delivering innovative solutions through advanced programming and design expertise. Proven ability in creating intuitive user interfaces and enhancing user experiences, leveraging skills in Service Now, JavaScript, and UX design tools. A collaborative team player, adept at training and mentoring junior developers in Agile methodologies. Committed to driving projects forward and optimizing functionality in fast-paced environments. Passionate about harnessing technology to solve complex problems and improve operational efficiency.

💼 Employment History

Developer at Tata Consultancy Services Gmbh, Frankfurt am Main

September 2021 — Present

- Worked for Deutsche Bank as a part of the Design team and drew wireframes for developing a solution to the task.
- Also was a part of the startup Scrum Team formed to train the juniors in Agile Methodology.

Research Student at SRH University Heidelberg, Heidelberg, Germany

February 2019 — February 2020

- Researched intensively on the topic "Behavior of Self Driving Cars after sensor actions" by studying certain Object Recognition techniques. I also learnt ROS (Robot Operating System) and OpenCV in Python which plays an important role in Path Planning and Object Detection.

Front End Developer at SRH University Heidelberg, Heidelberg, Germany

June 2019 — February 2021

- Made some use cases and interfaces for the project "Smart Network" which basically was made to display Instagram and Facebook on a single page to remove the navigation feature which the users did while changing from one platform to other.

🎓 Education

M.Sc. Applied Computer Science, SRH Hochschule Heidelberg, Heidelberg, Germany

September 2018 — January 2020

Modules:

- User Experience and Interfaces
- International Project Management
- Software Development and Architecture
